Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

The Severn Survey District is a collection of late-nineteenth through early-twentieth-century houses, two churches, and an abandoned market, which straddles the Amtrak tracks. Old Camp Meade Road and Severn Station Road are the two principal streets within the survey district. Bungalows and four-square houses are the main building styles, with a few modest, two-story side-gabled houses interspersed. The Severn United Methodist Church (AA:1078) appears to be the only previously individually-identified property within the district.

Extensive modern infill, particularly around Severn Station Road, diminishes the cohesiveness and integrity of the survey district. There are no distinctive buildings that would be individually eligible for listing, nor is the survey district distinctive enough to qualify as an eligible historic district. Therefore, the Severn Survey District is recommended as not eligible for listing in the National Register.
